Building excellence every day

ALUMIL

Our cooperation with Alumil Group, started in 2010 and concerns the industrial facilities of the Group in Kilkis Industrial Area, as well as the exhibition space, the offices and the warehouses in Efkarpia, Thessaloniki.

Twenty-four hour of static guarding security, reception services and patrols are carried out in all facilities of the Group. Equipped with the latest technology in closed CCTV camera systems, we offer a high level of security and protection, explaining why Alumil Group trusts us for a long time for the security of its facilities.

For the implementation of the project, K2 Security has an experienced team of 10 people, 1 chief of staff as well as the necessary equipment, including company vehicles for the proper supervision of security services.
